

RIDER

Michał Milczarek Trio

Michał Milczarek – guitar

Bartek Łuczkiwicz – bass

Mateusz Modrzejewski – drums

The sound system has to be free of any noise, electric hum or other disruptions. The power sources for the musician's backline have to be stable grounded, safe and separated from the lights power sources.

Monitors

Three monitors of SRX712 quality. The drummer and the bass player can use also in-ear monitors (they usually provide their own systems, only XLR/jacks with monitor mix are needed) – in that case, only one monitor can be used.

During soundcheck please pre-configure monitors with these proportions:

Michał: bass 80% guitar 0% drums 60% overhead 60% hi-hat 60%

Bartek: bass 0% guitar 70% drums 85% overhead 75% hi-hat 70%

Mateusz: bass 100% guitar 70% drums 85% overhead 75% hi-hat 70%

This will speed-up the soundcheck greatly, so we can use the time for fine-tuning of monitors.

Input

	Source	Microphone/Line
1	Kick	D6, beta 52
2	Snare 1	Sm 57
3	Snare 2	Sm 57
4	Hi hat	Sm 81
5	Tom 1	D2
6	Tom 2	D4
7	Oh L	Sm 81
8	Oh R	Sm 81
10	Bass	Xlr
11	Guitar	Sm 57
12	Vox	Sm 58

Each musician should be provided with 3 power sources (230V).

All the FOH and other equipment should be set up and checked (linecheck) at least an hour before the band's arrival. In case of any questions, problems or differences from this rider, please contact us.

Thank you for your cooperation!
